- Technical Leadership
- Debugging and Optimization
- Code Quality Assurance
- JavaScript (ES6+)
- TypeScript
- React (Hooks, Context API, Performance Optimization)
- Svelte
- RESTful API Design
- GraphQL
- Agile Methodologies

PROFILE SUMMARY

As a Senior Front-End Developer and Technical Lead, I bring hands-on experience in building dynamic web applications. I'm particularly skilled in React and Svelte, and I've successfully led teams through every stage of the development process, from brainstorming ideas to deploying the final product. I thrive on creating clean, efficient code and enjoy mentoring others to achieve the same high standards.

WORK EXPERIENCE

Suited Connector   2019 - PRESENT
Senior Frontend Developer

- Implemented optimized coding practices, reducing front-end load times by 2 seconds and enhancing overall website performance.
- Resolved cross-browser compatibility issues across multiple platforms, ensuring a consistent user experience.
- Seamlessly integrated third-party APIs (e.g., Google Maps, YouTube, Anura), enhancing website functionality.
- Led A/B testing to identify and implement improvements, increasing user engagement by 15%.
- Collaborated with back-end teams to ensure seamless integration of user-facing elements with server-side logic.

Estes Express Lines   2018 - 2019
Dock Supervisor

- Verified and inspected incoming shipments for accuracy and completeness, ensuring inventory integrity.
- Oversaw and ensured timely, accurate loading of orders, meeting customer specifications and delivery schedules.
- Developed and implemented procedures for efficient loading and unloading of merchandise, improving workflow and reducing errors.
- Trained new employees on dock equipment operation and safety protocols, enhancing team performance and safety compliance.
- Managed daily operations of loading dock staff, optimizing productivity and maintaining smooth workflow.
- Led recruitment efforts, including conducting interviews and selecting candidates, to maintain optimal staffing levels.
